

Dean's Faculty Forum  
at Tufts University presents:

# “MANY WORLDS IN ONE”

A Lecture by Alexander Vilenkin  
Professor, Department of Physics and Astronomy

Recent developments in cosmology suggest that the big bang was not a unique event in the cosmic history. Other bangs constantly erupt in remote parts of the universe, producing new worlds with a great variety of physical properties. Professor Vilenkin will discuss the origin of this new worldview and some of its bizarre implications.

With discussant Lawrence Ford, Professor, Department of Physics and Astronomy

- **WEDNESDAY, NOVEMBER 7 • RECEPTION: 5:15pm BALLOU HALL, 3rd FLOOR •**
- **LECTURE: 6:00pm COOLIDGE ROOM, BALLOU HALL, 2nd FLOOR •**
- **MORE INFORMATION: [deansfacultyforum@tufts.edu](mailto:deansfacultyforum@tufts.edu) •**
