Creative Careers: Fusing Art and Science

Friday, May 6th from 12-2 p.m.
574 Boston Ave, Room 401
Lunch will be provided

Do you ever wonder if there are jobs out there that value both artistic and scientific thinking? Do you feel as if you could thrive only in an environment that accepted you as both a scientist and artist? Do you ever wonder if it will be possible to maintain your passion for learning when you have a desk job?

Please join our 6 panelists as they engage in conversation with Dean Bauer about their careers at the interface art and science, enthusiasm in the workplace, and the importance of dialogue around these ideas.

STEM to STEAM
