Developing Sustainable Communities
UEP 284 (Spring 2019)

*Thursdays: 1.30pm – 4.00pm in Brown House, 97 Talbot Ave*

Professor **Julian Agyeman**, 617-627-4017, julian.agyeman@tufts.edu

Office hours: Wednesday and Thursday 10:00 am–1.30pm by appointment

**Course Description**

This course explores the many challenges of achieving ‘*just sustainabilities*’ through a critical, coherent and thought provoking overview of moves towards developing sustainable communities.

The course focuses on: improving our quality of life and wellbeing; meeting the needs of both present and future generations (intragenerational and intergenerational equity); justice and equity in terms of recognition, process, procedure, and outcome; living within ecosystem limits (also called ‘one planet living’).

It investigates the theories of sustainable development and the tools and techniques and in what contexts we can move towards the ecological integrity, economic security, empowerment, responsibility and social well-being characteristic of sustainable communities. Case studies are drawn from around the world.

**Course Objectives**
• To begin to understand the content, processes, and implications of the just sustainabilities agenda
• To begin to understand the principles, tools, and techniques available for developing sustainable communities

Course Book and Readings

The course book is:

Please note: The Required Readings in this syllabus are either in the Course Book, or are available as PDFs in the relevant class folder on Canvas, in boxes that fit each class 1-12. Where the relevant reading/video is a web-based resource, simply click on the URL in the syllabus.

Clearly, to cover the ground of this syllabus will require that students complete all the Required Readings before each class and come to class ready to discuss these readings. I have also added Additional Readings for some classes.

The course is reading-intensive, discussion-driven and hands-on.

Assessment

*Class Participation* 10%

Active class participation is a crucial part of this seminar and makes 10% of your final grade. Think of it as an intellectual potluck: the more that is brought to the table by students, the more we all learn. To achieve full marks in class participation, you will need to make useful and insightful comments *in each class*. Remember however that we
respect all opinions and positions and that we treat every class member and his/her opinions with grace and dignity.

Assignment 1 Weekly Forum contribution 20%

Beginning after Class 1 (January 17) I’d like you to submit to our Canvas Forum by Sunday at 5.00pm each week, a 500-750 word ‘thought piece’ on your reflections on the week’s readings/speakers including your own thoughts (challenges, conflicts, agreements, disagreements) about how you as an intending policy/planning professional relate to the readings and class discussion. If you wish, your contribution can be a comment on someone else’s thoughts.

Assignment 2 The ‘aha’ reading (10%)

For any chapter in the course book, resource or URL based reading write a 2 page, single space ‘aha’ piece on a) why the reading has excited you and b) how it might inform your professional practice (I know you don’t know what job you may be doing!). Due Class12 April 18

Assignment 3 Semester long case study project (60%)

All of the work you do will be presented on a Tufts Wordpress web site (see below for Tutorial). An excellent example might be this from a Cities in Space, Place and Time (UEP 252) class in which Betsy Byrum chose to look at Climate Change in New York City. Note how she uses drop down menus, icons for navigational ease, graphics, embedded video, maps, policy documents, infographics, and references to both academic and other work.

Other recent Case Study examples include:

https://sites.tufts.edu/healthycities/
So, first, choose a place (city/town/village/smaller community) in the US or anywhere that is doing interesting work in your policy/planning interest area. Policy/planning area examples – You might choose to explore the sustainable communities implications of, for example: housing, education, communication, interculturalism, equity/justice, transportation, food systems, public health, water, open space, infrastructure, energy, land use planning, sustainability, environmental protection/conservation, climate change etc

In all cases, your website will need to consider and think through the implications of your policy/planning interest area on there key areas but feel free to include others:

• improving people's quality of life and wellbeing;
• meeting the needs of both present and future generations (intragenerational and intergenerational equity)
• justice and equity in terms of recognition, process, procedure, and outcome;
• living within ecosystem limits (also called ‘one planet living’)

Key dates:

• Finalize place and policy/planning area of interest, -email to me by Feb. 8
• Deliverable 1 - basic 2 page paper outline/draft – due March 1 – 7.5 points
• Deliverable 2 - skeleton website – due April 5 – 7.5 points
• Deliverable 3 - final website and presentation – due April 25 – 45 points

The grading rubric is in the Assignments section of Canvas. Make sure you cover Content, Connections, Organization/Flow and pay attention to your Writing/Graphics/Citations carefully.

To help you there is a WordPress Basics Tutorial from Tufts Educational Technology group, authored by David Grogan.

The tutorial above should answer your basic questions. After you have gone through that, and assuming you need more help, you can contact Tufts Educational Technology services - David Grogan is the main person heading up the WordPress services but he has a number of assistants who can help. Tufts Educational Technology E-mail: edtech@tufts.edu Phone: 617-627-2859.

Grades are based on the following points:

<table>
<thead>
<tr>
<th>Grading</th>

Tufts Academic Integrity and Code of Conduct

You will be responsible for following Tufts Academic Integrity Policy and the Student Code of Conduct. Both of these are found on the [Student Affairs - Publications web site](#). Please read these carefully! Note this site also describes the Student Judicial Process that describes your rights as a student at Tufts and the process to follow if you feel these have been violated.

Plagiarism will not be tolerated. Tufts faculty are required to report any instance of plagiarism to the Dean's office - at that point, we have no control over the situation. Please read and review Preventing Plagiarism in the section on 'Writing Support' on the Tufts Academic Resources Center site to understand the various types of plagiarism, including those you may not be aware of. If you have ANY questions, please contact me early in the semester before you write any assignments. Otherwise I will assume you clearly understand the plagiarism guidelines.

If you have ANY questions, please contact me early in the semester before you write any assignments. Otherwise I will assume you clearly understand the plagiarism guidelines.
Style Guidelines

All written work must be consistent with the style guidelines of one of the two major style guides used at UEP - the Chicago Manual of Style (MLA) or the Publication Manual of the American Psychological Association (APA). Both provide clear guidelines for referencing and citing other works. You may buy either of these - they will be a useful long-term reference. The Purdue Online Writing Lab also has extremely good guidance to both styles.

Students with Disabilities

The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you believe you have a disability requiring an accommodation, please contact the Tufts Accessibility Services office.

Preferred Pronouns

You can now make a note of your preferred name on SIS. If you have any specific pronoun preferences, please let me know on the first day of class. My personal preferred pronouns are 'he, him, and his.'

Part 1: What is Sustainability?

Class 1 January 17 Introduction to the class

In the first part of class, I’ll outline the aims and scope of each class, assessment, and my expectations of you. In the second half, there will be a presentation/discussion around a critically important topic:
Readings

PLEASE MAKE SURE YOU READ THIS BEFORE OUR FIRST CLASS!!

Tellus Institute, Boston (2010) Global Scenarios for the Century Ahead: Searching for Sustainability (PDF)

Class 2 January 24 Introducing just sustainabilities I

Does ‘green’ = ‘sustainability’? In this class I’ll argue for what I call just sustainabilities: “Sustainability cannot be simply a ‘green’, or ‘environmental’ concern, important though ‘environmental’ aspects of sustainability are. A truly sustainable society is one where wider questions of social needs and welfare, and economic opportunity are integrally related to environmental limits imposed by supporting ecosystems” (Agyeman et al. 2002, 78). The class will focus on the first two conditions of the move towards just sustainabilities:

-improving our quality of life and wellbeing;

-meeting the needs of both present and future generations (intragenerational and intergenerational equity);

Required Readings

Marks, N (2012) Happy Planet Index
https://www.youtube.com/watch?v=sZPYI8BfnBs

The Guardian (2015) Sustainable development goals: all you need to know
http://www.theguardian.com/global-development/2015/jan/19/sustainable-development-goals-united-nations

Sample, I (2014) Anthropocene: is this the new epoch of humans?

Additional Readings

Class 3 January 31 Introducing just sustainabilities II

In this class we’ll continue our exploration of just sustainabilities by looking at two other requisite conditions:

-justice and equity in terms of recognition, process, procedure, and outcome;

-living within ecosystem limits (also called ‘one planet living’)

Required Readings

Raworth, K (2012) *Introducing 'The Doughnut' of social and planetary boundaries for development* [https://www.youtube.com/watch?v=PCAx3TG8LkI](https://www.youtube.com/watch?v=PCAx3TG8LkI)

Oxfam (2012) *A safe and just space for humanity: Can we live within the doughnut?* (PDF)

**Additional Readings**

**Class 4 February 7 What are sustainable communities?**

There is a broad, general agreement on the principles or characteristics of sustainable communities, although to date, no community has all of them. This class will investigate these key principles and look critically at how we might move towards *practice* that is more reflective of the *theory of just sustainabilities*

**Required Readings:**

Curitiba: How a Brazilian City Has Revolutionized Urban Planning [https://www.youtube.com/watch?v=hRD3l3rlMpo](https://www.youtube.com/watch?v=hRD3l3rlMpo)

**Additional Readings**

The Ahwahnee Principles for Resource Efficient Communities: [http://www.lgc.org/wordpress/docs/ahwahnee/ahwahnee_principles.pdf](http://www.lgc.org/wordpress/docs/ahwahnee/ahwahnee_principles.pdf)

**Part 2: How do we get there?**

Class 5 February 14 Towards sustainable communities: tools and techniques I: *Overview*
This class will attempt to give a broad overview of the various tools and techniques (community, planning and economic), strategies and innovations required to develop sustainable communities.

**Required Readings:**

Camponeschi, C (2010) *The Enabling City: Place-Based Creative Problem-Solving and the Power of the Everyday* (PDF)

**NO CLASS FEB 21**

**Class 6 February 28 Tools and techniques II: Communication tools and Sustainability Indicators**

We’re convinced about sustainability and sustainable communities, right? But how do we get people to ‘buy into’ sustainability (if you’ll excuse a consumerist phrase!). Just giving people lots of information has been shown not to work for people other than those already converted, so how do we reach the undecideds and the others who haven’t even heard of sustainability?

In the second half of the class we’ll look at sustainability indicators which range from welfare-based, to environmental, from economic to social, because, in order to know where you’re going (sustainable
communities), you've got to know where you are now (unsustainable communities).

**Required Readings:**

**Communication tools**

Kollmuss, A and Agyeman, J (2002) Mind the Gap: why do people act environmentally and what are the barriers to pro-environmental behavior?  
*Environmental Education Research* Vol 8 pp239-260

Class 7 March 7 Sustainable Development in Planning and Policymaking

Guest Speaker: Tom Evans, Executive Director Cambridge Redevelopment Authority

Many planning authorities are not yet using policies for sustainability in planning, despite the guidance available. In this class, we will look at the opportunities to bring sustainability to places in both the San Francisco Bay area and the Boston Metro area, focusing especially on Kendall Square Cambridge.

Required readings:

Kendall Square Report, Goals and Recs. (PDF)

Kendall Square Final Report (PDF)

Sustainability Plan, Hunters Point Shipyard/Candlestick Point (PDF)
Gunder, M (2006) Sustainability: Planning’s Saving Grace or Road to Perdition? *Journal of Planning Education and Research* 26 pp208-221 (PDF)

**Part 3: Shifting the paradigm**

**Class 8 March 14 Food and sustainable communities.**

What role does (or could?) food and urban agriculture play in developing sustainable communities? In this class we critically analyze concepts like who gets to define ‘the local’ on local produce, planners ‘imposing’ urban agriculture on communities; immigrants and ‘new agricultures’ in the US, the city of Belo Horizonte, Brazil’s revolutionary food policies, food policy councils city food plans/strategies and an emerging local food economy in Boston.

**Required readings:**

Groundbreaking food policy: Belo Horizonte!
https://www.youtube.com/watch?v=fegBrwfHZ80

Loh, P and Agyeman J (2018) ‘Urban Food Sharing and the Emerging Boston Food Solidarity Economy’ *Geoforum*
https://doi.org/10.1016/j.geoforum.2018.08.017 (PDF)

Toronto Food Policy Council (2012) “Grow Toronto Action Plan” (PDF)
Class Exercise

We will undertake a SWOT Analysis of Seattle and Toronto Food Action Plans in terms of their contributions toward creating sustainable communities

Class 9 March 28 Place-making and sustainable communities.

A dominant narrative in urban planning and sustainable communities is place-making whereby, so the theory goes, local communities help shape the spaces and places they inhabit be they streets, parks and open spaces, or as we saw last class, spaces for growing food. Do all people have equal access to space and place? Who gets to define ‘place’? Are ‘Complete Streets’ always complete? This class will look at the possibilities and contradictions inherent in place-making.

Required Readings:

Project for Public Spaces What is Placemaking? http://www.pps.org/reference/what_is_placemaking/

Class 10 April 4 Culture, Space, Place and Sustainability.

As our US and other ‘western’ cities become more diverse, more different and more heterogenous, how do we think about and act
upon this in terms of planning for sustainability and the development of sustainable communities? We need to move towards ‘intercultural’ communities and societies where difference and diversity are seen as advantages, not problems.

**Class Video**

**Required Readings:**

**Additional Readings**

**Class 11 April 11 From the Sharing Economy to the Sharing City?**

A reinvention and revival of sharing in our cities could enhance equity, rebuild community and dramatically cut resource use. With modern technologies the intersection of urban space and cyber-space provides an unsurpassed platform for a more inclusive and environmentally efficient sharing economy and ultimately, more sustainable communities

**Required Readings:**

Please watch two short videos before class: Amsterdam: Exploring the Sharing City [http://www.shareable.net/blog/new-documentary-celebrates-amsterdam-as-a-sharing-city](http://www.shareable.net/blog/new-documentary-celebrates-amsterdam-as-a-sharing-city) and Rachel Botsman: The case for collaborative consumption [https://www.youtube.com/watch?v=AQa3kUJPEko](https://www.youtube.com/watch?v=AQa3kUJPEko)

Latitude, (2013) *The new Sharing Economy: a study by Latitude in collaboration with Shareable magazine.* (PDF)

Orsi, J, Y Eskandari-Qajar, E Weissman, M Hall, A Mann, and M Luna, 2013. *Policies for Shareable Cities: A sharing economy policy primer for urban leaders.* Shareable and the Sustainable Economies Law Center (PDF)

**Class 12 April 18 Sustainable community futures? Copenhagen and Vancouver.**

Two cities above all others, Copenhagen and Vancouver, have developed visions of sustainable community futures. They have ambitious targets, goals and beautiful looking brochures. Are they moving in a direction we would recognize as being toward *just sustainabilities,* as in Vanesa Castán Broto & Linda Westman’s (2016) research, or are they simply becoming *greener?*

**Class Readings**

City of Copenhagen (2012) *Copenhagen: Solutions For Sustainable Cities* (PDF)

Please refresh your memory of:

Additional Readings

Sustainia: A Guide to Copenhagen 2025

Class Exercise

We will undertake a SWOT Analysis of Copenhagen: Solutions For Sustainable Cities and Vancouver’s Greenest City: 2020 Action Plan in terms of their contributions toward creating sustainable communities. How do they compare with Vanesa Castán Broto & Linda Westman’s (2016) analysis?

Class 13 April 25 Case Study Presentations
